

MONTANA

OFFICE OF TOURISM

Frequently Asked Questions About the Tourism Infrastructure Investment Program (TIIP) 2009

Who is eligible to apply?

Any organization officially recognized by the IRS as having a non-profit status. Montana Indian tribes, cities and counties would be considered as qualifying tourism-related, nonprofit groups for the purposes of applying for participation in TIIP.

What is the required match?

The required match is 2:1. For every two dollars of grant money being requested, the sponsor must provide one dollar.

The match must be in “hard” dollars. In-kind services will not be considered as part of the required match amount.

Money that has been put toward the project in the current and previous fiscal year (since July 2008) may be considered as part of the hard match.

What are the grant amounts?

The grants can range from the minimum of \$20,000 to the maximum amount available for the TIIP grants in any given year. The amount of FY 2010 (July 1, 2009-June 30, 2010) TIIP Grant funds will be determined in June 2009.

How Do I get a TIIP Application?

Contact Travel Montana’s Tourism Development & Education Program, 406-841-2795, FAX 406-841-2871, vbjornberg@mt.gov. Current, updated applications are available by March of each year. TIIP applications, guidelines, funding history and other program information is available electronically at <http://travelmontana.mt.gov/forms/>

When is the application deadline?

Completed applications must be received at Travel Montana, Department of Commerce, 301 South Park Avenue, Helena, MT 59620-0533 by 5:00 p.m. on August 3, 2009. No Late or Incomplete Applications will be considered.

What types of projects are eligible?

TIIP funds are to be used for “brick and mortar” projects. They cannot be used for marketing or ongoing operating expenses. Types of usage that would be allowed include, but are not limited to, project construction costs associated with building new and/or remodeling or preserving existing tourism and recreation attractions, historical sites and artifacts; costs associated with purchasing new and/or existing tourism and recreation attractions, historical sites and artifacts; and equipment purchased for specific tourism project operation.

What types of projects score high?

Projects that tend to score high usually fall into one of three categories:

1. Projects that clearly demonstrate their role as a tourism & recreation attraction in their community and region, and the benefits the project will provide through maintaining or expanding this role.
2. Grant funding that completes a project rather than “seed money” to start a project.
3. The urgency of the project is clearly demonstrated (i.e. the proposed project, if not completed within the next 18 months, will not happen or the project focuses on urgent repairs and/or stabilization to a recognized cultural, historical, interpretive and/or other tourism-related resource).

What types of projects score low?

All infrastructure needs are important and each application is judged on its own merit. Projects that retain visitors based upon cultural, historical, or interpretive significance have scored higher than projects where people may stop briefly and be pointed to other attractions in the area. Historically, projects that have scored lower in the process have included visitor information centers, stand alone public restroom facilities, and projects that have recently received TIIP funds. Lower priority may be given to projects submitted by state and federal agencies or projects that received TIIP funds within the previous 5 years.

What projects have been funded?

Fiscal Year 2009

Museum of the Rockies, Explore Yellowstone: Children’s Discovery Center (Bozeman);
\$67,270

International Choral Festival, Inflatable Sound Shell, Risers, and Trailer (Missoula);

What is the timeline for the selection process?

Applications are due to Travel Montana August 3, 2009. The TIIP committee reviews and scores the applications and makes a recommendation to the Tourism Advisory Council (TAC) at their October meeting. The TAC then makes a recommendation to the Montana Commerce Director who makes the final decision. These are usually announced in mid to late October. All applicants are then notified of the status of their application.

How long does the recipient have to invest his grant funds?

Grant funds must be spent within 18 months of signing the contract. Contracts are usually signed in December.
